1 The points of differences between that and the one framed by the Cuttack municipal Council are chiefly these —

(1) K G. 7 & 8 Dn area has been divided into 3 Circles with two depôts for each Circle Cuttack municipality on the other hand is proposed to be considered a single Circle with 2 depôts

(2) K G 7 & 8 has 3 vaccinators & one female vaccinators. Cuttack municipality proposes to employ a male vaccinator. the Lady Apothecary in charge of the Female Hospital being deemed the female vaccinator

(3) Hours of business - 7 to 11 A.M. in the K.G 7 and 8 to 11 A.M. in Cuttack municipality.

(4) On the K G 7 and 8 Area a fee can be charged if vaccination is done at ones own residence No such fee is contemplated in the Cuttack municipality bye-laws

In other respects the two bye-laws are almost identical It is respectfully submitted in this connection that Rule 24 of the vaccination Rules specifying what matters may be provided for in the bye-laws both that it is not obligatory on the part of the Municipal Council

The bye-laws as now framed may be kindly accepted & passed by the Govt. I think for the present one male vaccinator & one female vaccinator (the Lady Apothecary for the time being) are quite enough for Kolar & Bowringpet & Chikmagalur. If experience dictates the necessity for additional vaccinators the question may then be considered.

Mr. Sole communicated with the Offg. Secretary Municipal Commissioners re. the objection for which the Offg. Chief Engr. has withheld a Copy of his Report which differs from the one framed by the Municipal Council as stated in para 6 of the Memorandum of the Hon'ble Minister. The Municipal Commissioners have informed the Chief Engr. that they do not propose to withdraw the objection raised by them.

Mr. Sole submitted a Memorandum of the objections suggested by the Municipal Commissioners, for perusal.

I Reg (1) The Land Revenue Code provides for the manner in which the necessary acquisition of land for the Municipality is to be made. Under Rule 3 of the Municipal Corporation Rules, the Municipal Commissioners of Madras have also been empowered to acquire land for the purposes of the Municipality. Separate Board of Revenue for the area.

2 Reg (3) The term "public" is applicable to the Municipality as well as to the Government.

3. By-law (6) This has been recast and altered - As the whole town is a single circle, it seems hardly necessary to say that the vaccinator shall reside within the limits of the vaccination circle - The Sanitary Comr suggests that "no fee shall be demanded in such cases (vaccination at residences) he (vaccinator) may however accept any remuneration or present freely and willingly offered to him" It does not seem expedient to leave the question of the vaccinator's remuneration so vague as that - If necessary, a small fee of four annas or eight annas may be prescribed for each case of the kind

Authority has been asked to increase the number of the vaccinators in the town

The Sr. Pri proposal may be mentioned

4 By law (7) - a Para (a) has been amplified and para (c) has been omitted - (a) may be put somewhat as follows:—
